About the Company

Established in **1956**, our farms have been the backbone of agriculture in Pakistan.

In **2008**, Jangisar Holdings was **founded** as a premier entity dedicated to pioneering distinctive agricultural and agro-industrial ventures across Pakistan.

Our ethos revolves around **fostering collaboration** with local communities, actively involving them in regional agricultural endeavors and initiatives while generating employment opportunities throughout project durations.

As an end-to-end integration powerhouse, Jangisar Holdings prides itself on its **adaptive capabilities** tailored to the unique landscapes of every region it operates in.

Our portfolio encompasses a wide array of **farming** and **livestock** undertakings, positively impacting the lives of countless individuals. Committed to ushering in new opportunities, we strive to empower communities and drive sustainable growth.

Our History

First Agriculture Farm in Pakistan to cultivate large scale banana plantations

1956

Creation of the company Jangisar Holdings with the understanding that Agricultural professionalism will always be needed in the future

2008

Started providing "Sowing-to-Harvest" services to local farmers

2010

Focus on Agri-technology and Precision farming by using NDVIA Drones for Crop scouting

2017

Started providing Contract Farming services to subscribers

2020

CEO Statement

"We are deeply committed to driving sustainable growth while addressing pressing global challenges such as climate change and poverty. With a rich history spanning over six decades, our organization stands as a beacon of innovation and progress in Pakistan's agricultural landscape.

Through our holistic approach, we not only strive to enhance the lives of rural populations but also prioritize sustainability at every step of our operations. By harnessing cutting-edge technologies and fostering resilient partnerships, we endeavor to mitigate climate risks, uplift communities, and contribute to poverty reduction initiatives.

Our unwavering dedication to sustainability underscores our mission to create a brighter, more prosperous future for generations to come."

With over two decades of dedicated international multi-industry expertise in financial risk management and strategy, Umair, based out of Dubai and Pakistan, stands out as a dynamic leader fueled by a passion for agriculture and social impact projects. At Jangisar Holdings, his commitment to streamlining operations and driving results aligns perfectly with his fervor for creating positive change within communities and agricultural landscapes. Additionally, he oversees the management and human relief projects of Dubai Farm, owned by the Ruler of Dubai.

Service

Our Mission

Financial Success

To provide our business with an acceptable financial success measured by profitability, efficiency, return on assets based upon an effective business model.

Team Members

To make Jangisar Holdings a great place to work by providing an atmosphere that promotes team member growth, satisfaction, trust and respect.

Growth

To provide for our expansion and growth so as to better serve our team members and the community at large.

The scale of business opportunities in agriculture is enormous.

Figure 1: Agriculture has slowed growth

Agriculture's role in Pakistan's GDP

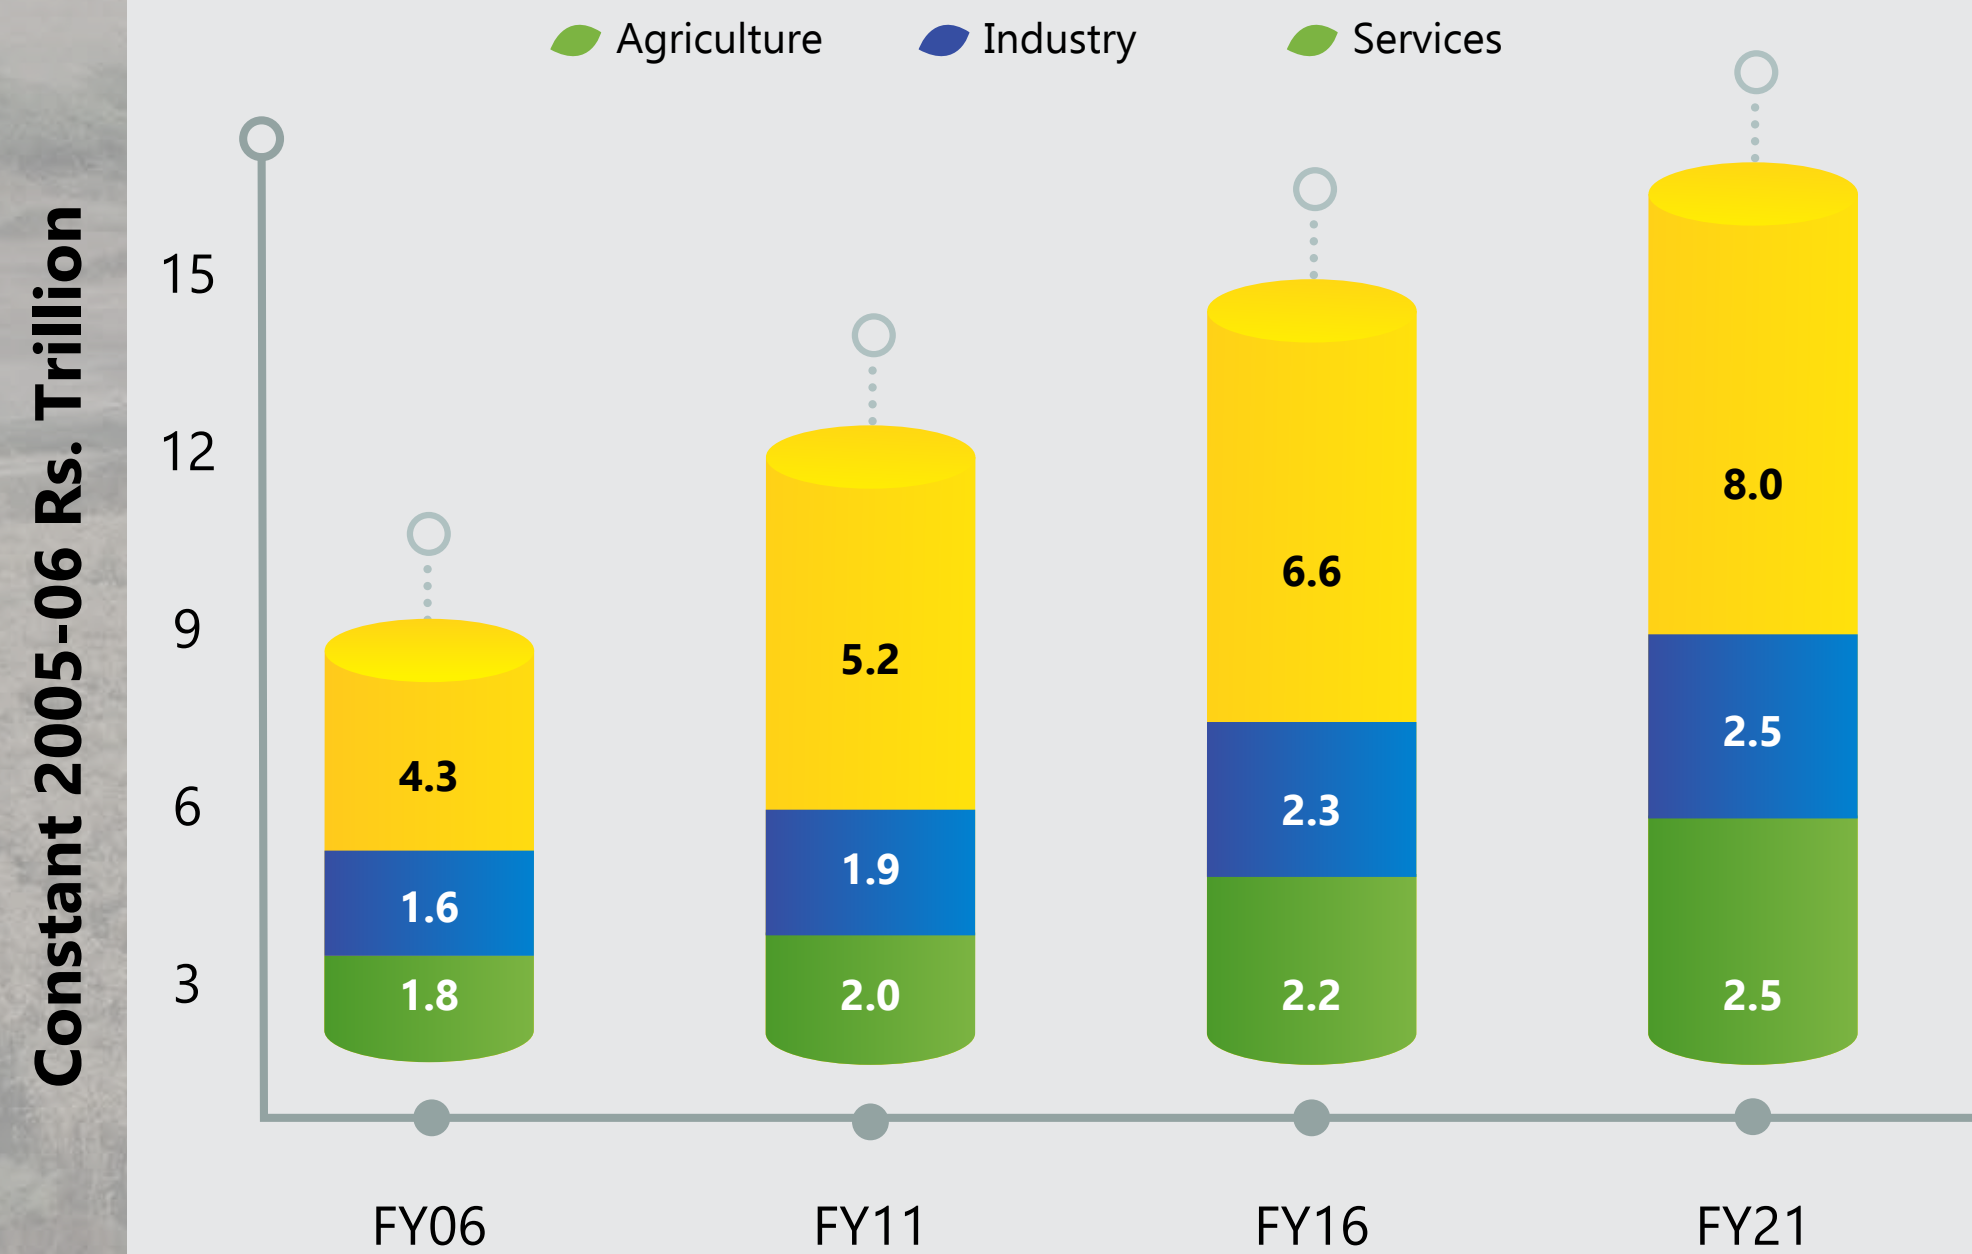

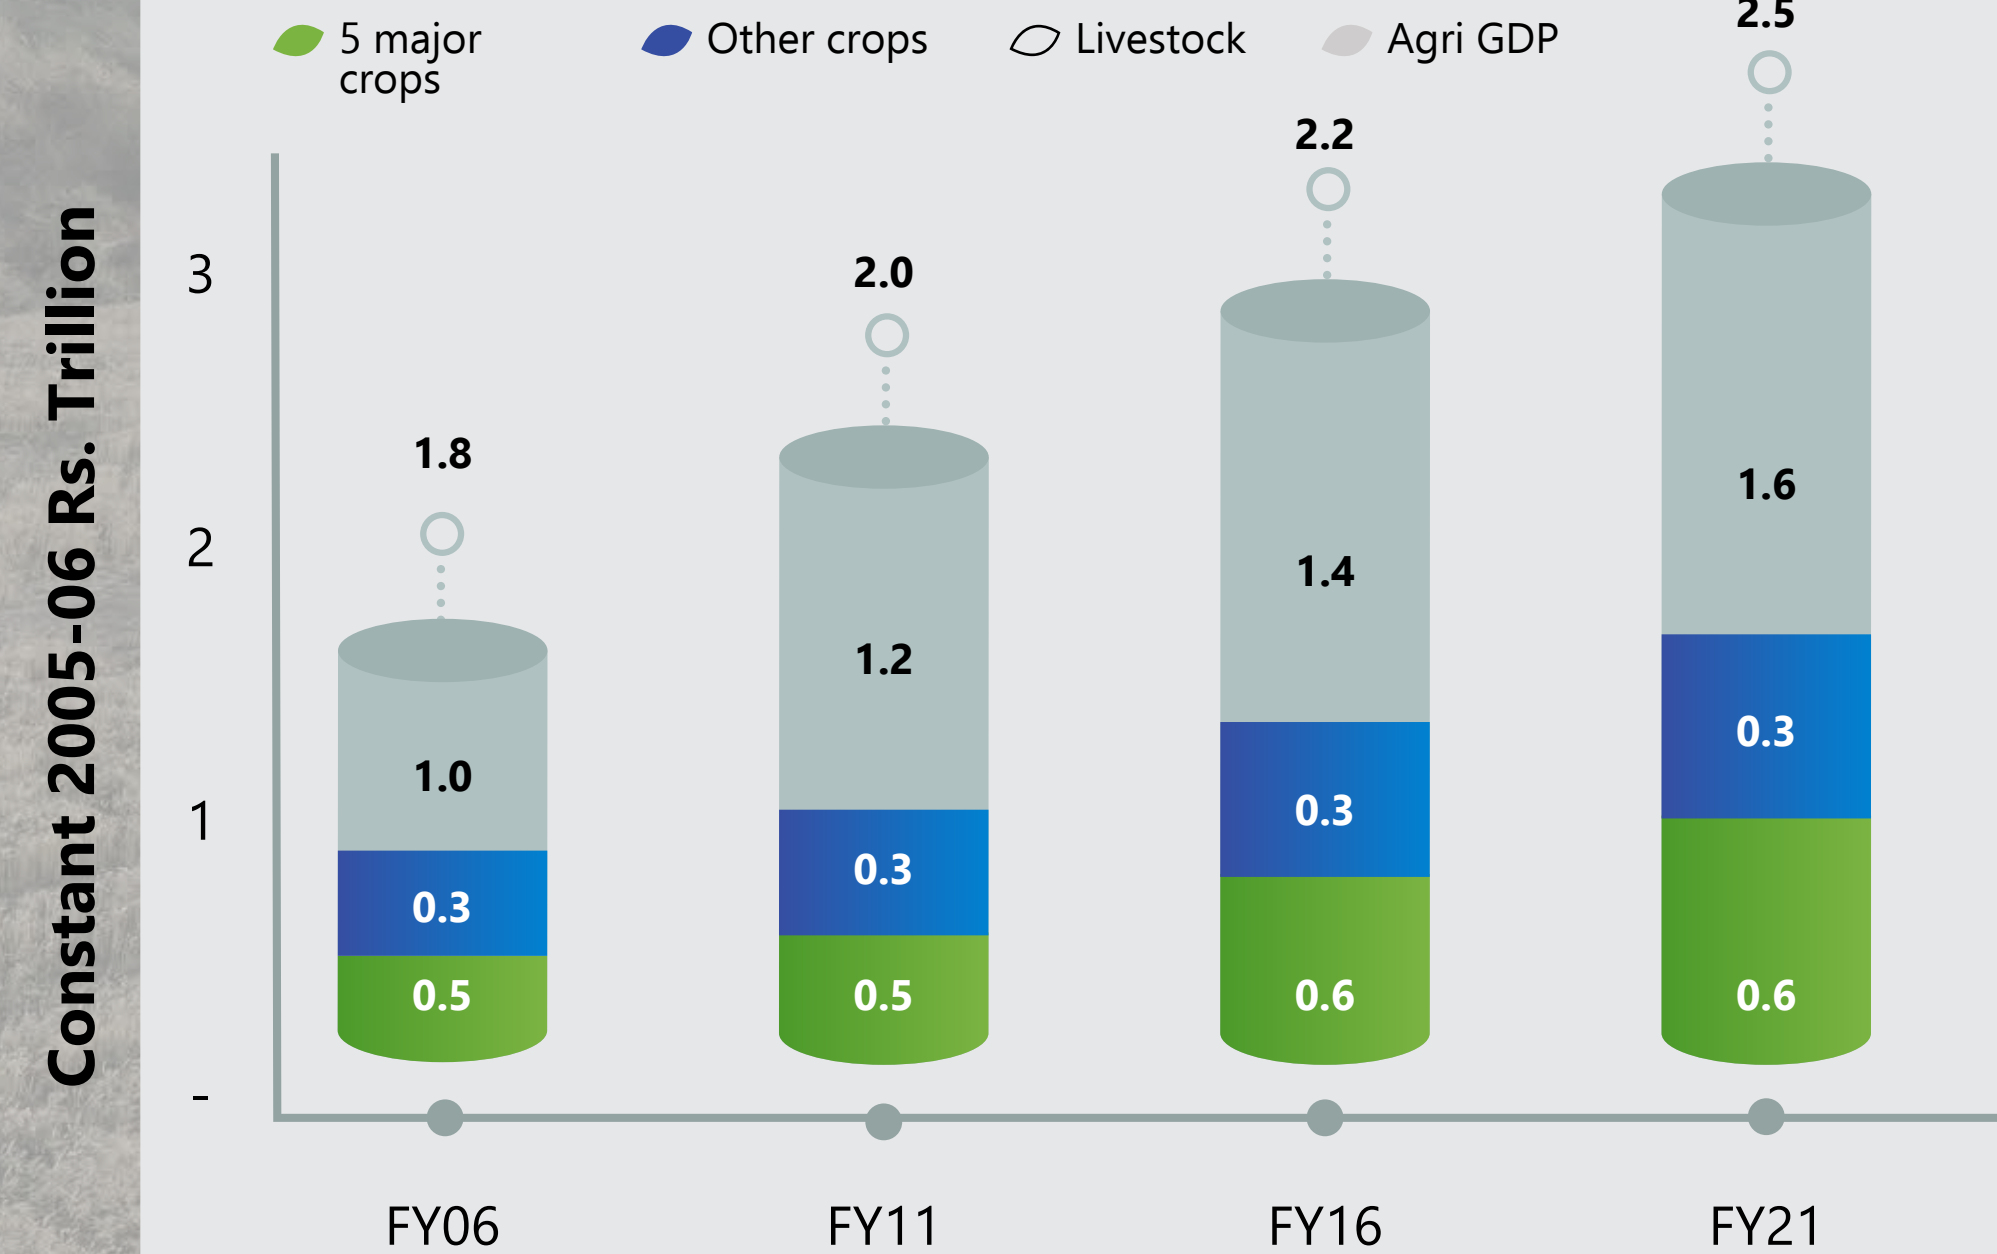

Figure 2: Low growth within agriculture

Components of Agri GDP

Real GDP growth in 5-year periods

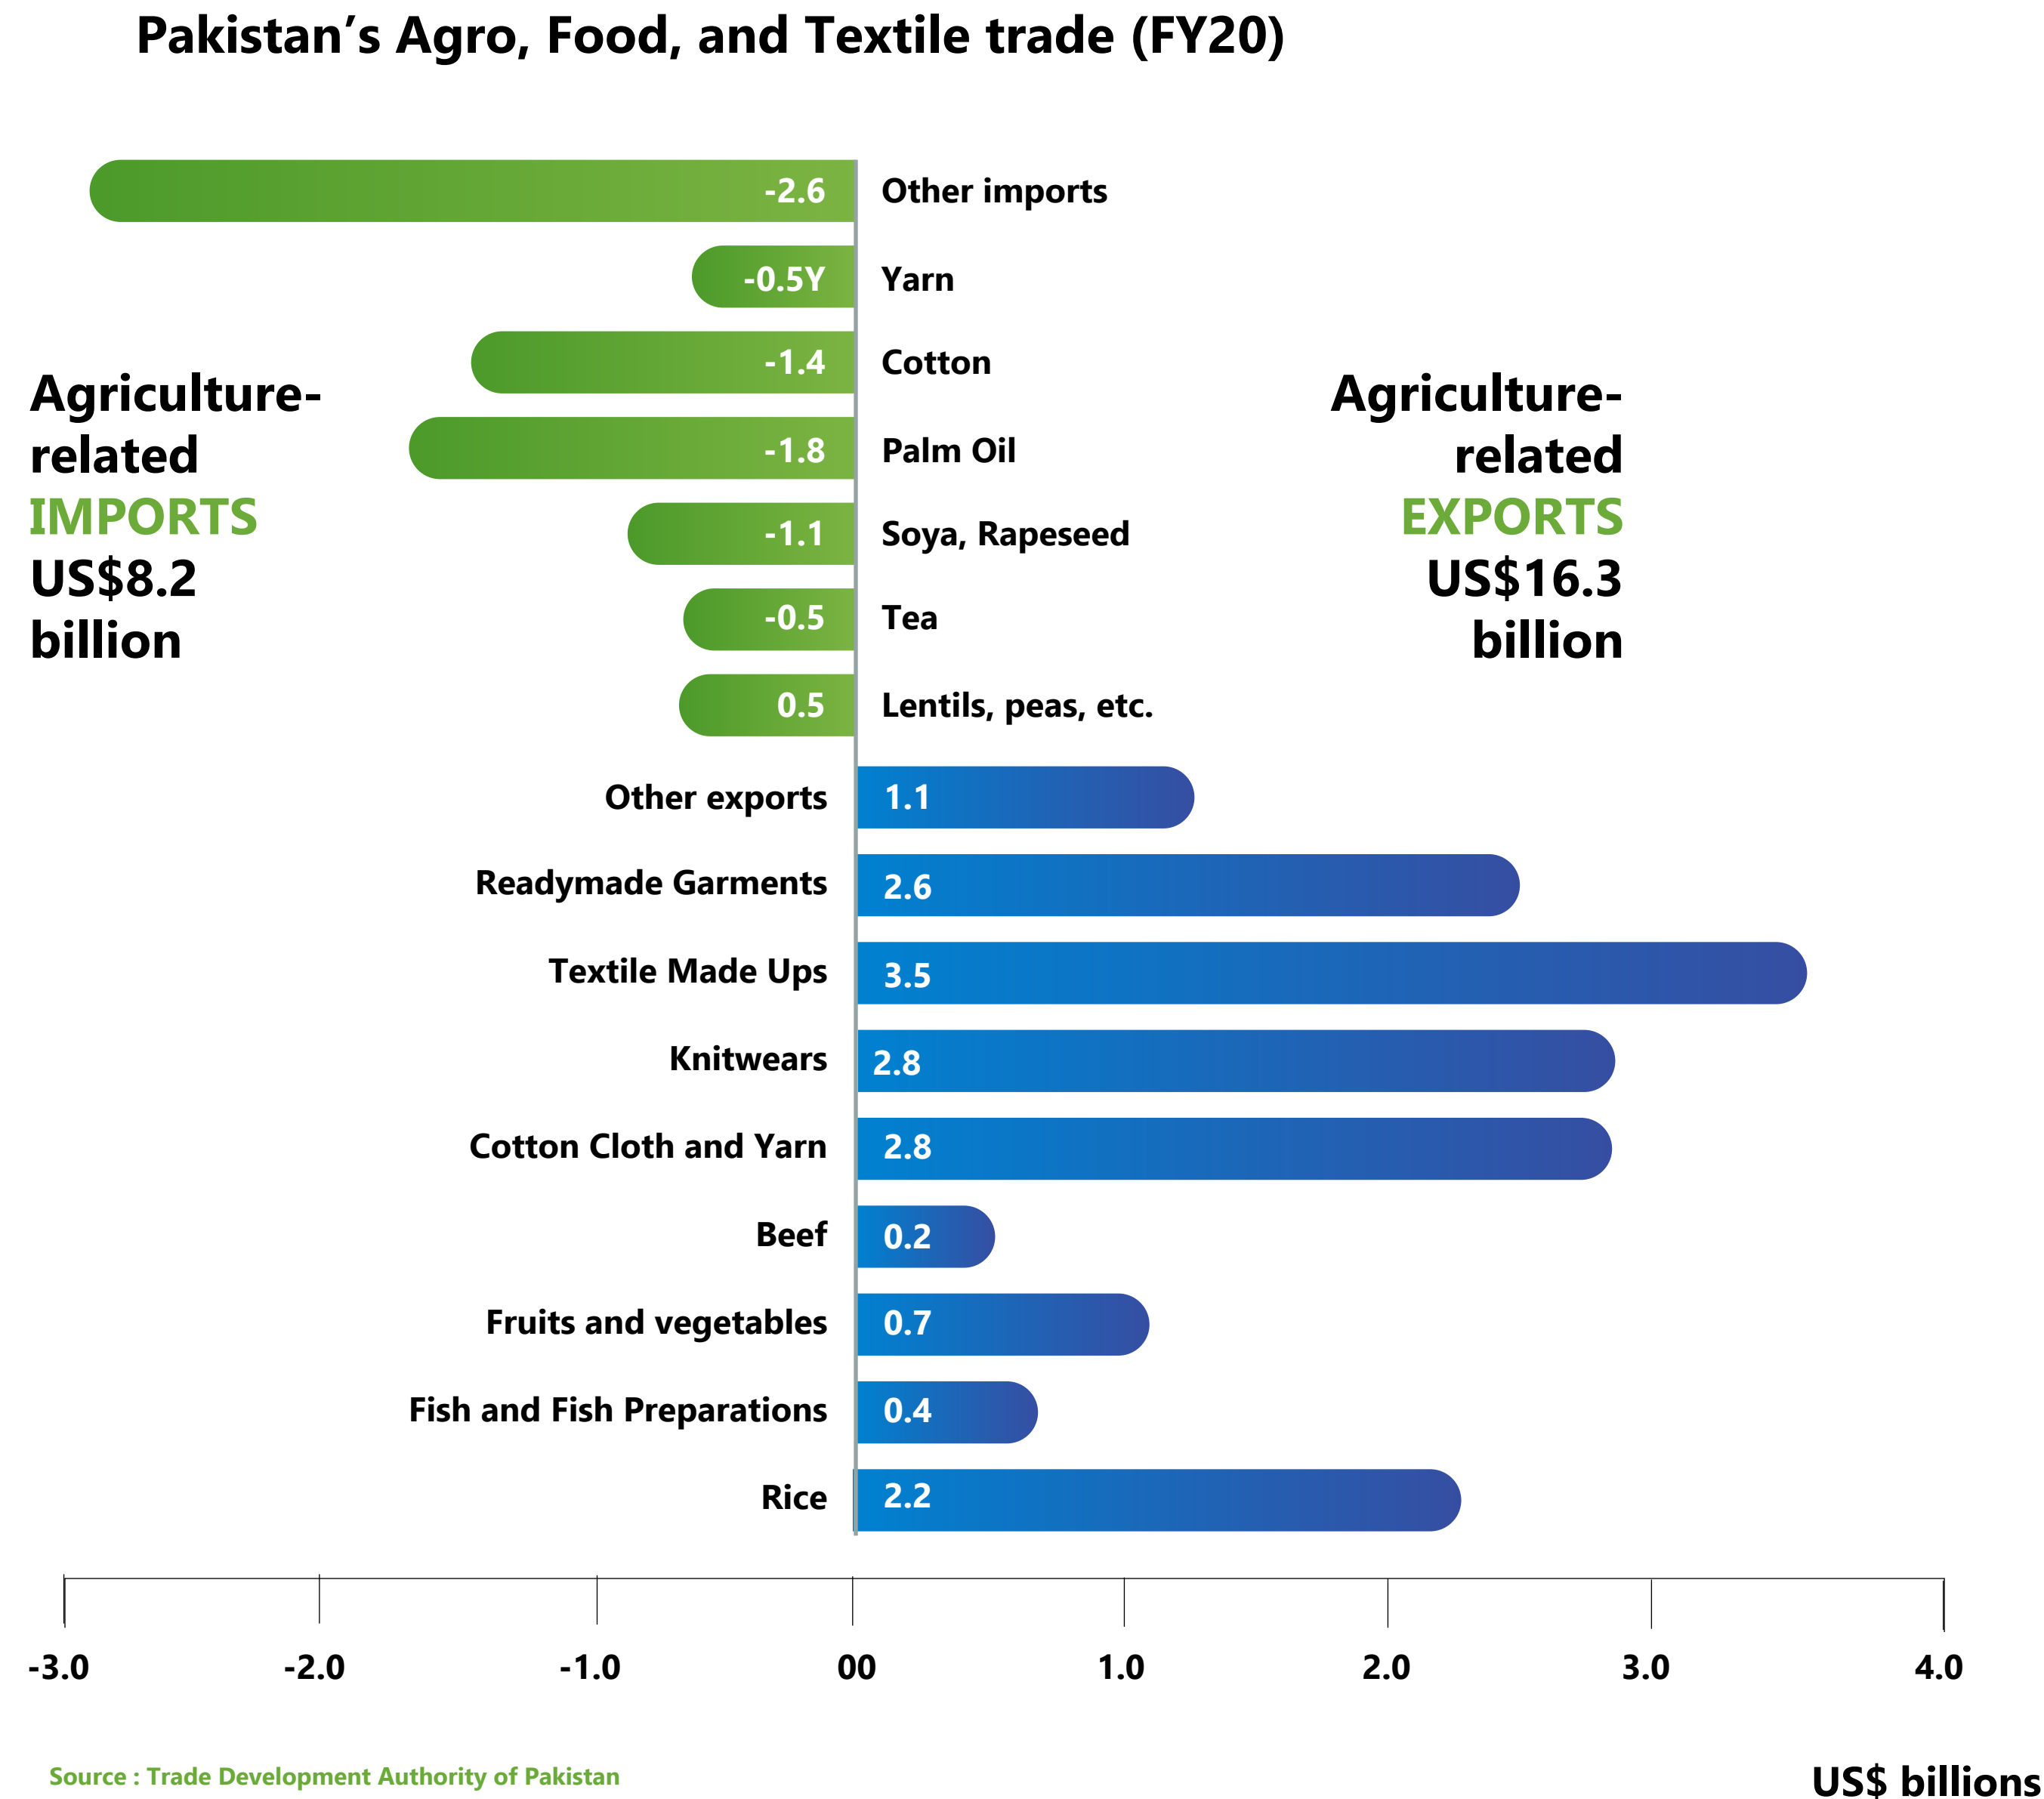

CAGR	Agriculture	Industry	Services	GDP
FY06-FY11	2.2%	3.7%	3.8%	4.6%
FY11-FY16	2.2%	3.7%	4.8%	4.0%
FY16-FY21	2.6%	1.4%	4.1%	3.2%

Real Agri GDP growth in 5-year periods

CAGR	Five major crops	Other crops	Livestock	Agri GDP
FY06-FY11	1.2%	0.6%	3.0%	2.2%
FY11-FY16	1.1%	-1.1%	3.4%	2.2%
FY16-FY21	1.1%	3.1%	3.0%	2.6%

Figure 3: Net food importer even before Covid

Just three crops—wheat, rice paddy, and maize—have a farm-gate value of about **\$12 billion**. For such business opportunities to be realized, agriculture's business model has to change: from government-driven to **private sector-driven**, from rigid to **entrepreneurial**, from traditional to **technology-based**, and from patronage to **global competition**.

Our Team & Partners

At the heart of our agricultural enterprise lies our esteemed team, our greatest asset. Comprised of seasoned professional managers and industry leading professionals boasting over **160 years** of collective agricultural expertise, we stand as a beacon of excellence in the field.

Embracing a unified "**One Team**" ethos, we tackle projects with unparalleled cohesion and efficiency, ensuring optimal outcomes for our clients. While our approach is driven by pragmatism and action, we maintain a warm and approachable demeanor, fostering fruitful collaborations with both international entities and local communities to realize our project objectives.

Central to our ethos is the value we place on **relationships** – be it with our clients or members of the community. Our dedication to accomplishing tasks is matched only by our commitment to **nurturing meaningful connections**.

**Our vast know-how and
experience at your service**

Core Services

01

Comprehensive Turn-key Project Management:

Specializing in the development and renovation of full-cycle agricultural projects tailored to meet client specifications and market demands.

02

Agricultural Operations and Farm Management

Utilizing extensive expertise to efficiently operate and manage farms, ensuring quality production and effective distribution to local markets.

03

Livestock Breeding & Fattening

Cattle Breeding and fattening involves a mixed herd of 250+ cross-bred cattle of high-yielding varieties such as Red Simmentals, Charolaise, Limousine and Black Simmentals

04

Agriculture guidance and training –

With assistance of our partners, we conduct professional agronomy and livestock training seminars for local farmers, fostering continuous improvement in agricultural practices for sustainable productivity growth.

05

Agriculture Technology –

Leveraging latest technology and expertise to provide cutting-edge services such as drone crop scouting, designing efficient irrigation systems, soil tests, generating GIS guided crop yield maps and water maps, to drive innovation and shaping the future of agriculture in Pakistan.

Management & Operations

In our endeavor to ensure the sustained success of every project we undertake, we extend comprehensive services to our clients, overseeing the management and operation of their projects for an initial period of 5 – 8 years, and in certain instances, beyond. Our farm management and operational services encompass the following components:

01

Recruiting and training all the staff to fulfill the necessary functions.

04

Managing the farm's sales and accounting.

02

Procurement, purchase, supply, and logistics of raw materials.

05

Issuing reports about the operation of the farm.

03

Placing full-time managers on the farm.

Livestock Breeding

Full range of solutions for husbandry and meat production starting from grazing areas, feedlot, feeding centers and treatment areas up to a full running profitable farm.

Field Crops

Advanced solutions for open field grain production. We work in close contact with leading seed companies including research regarding best seeds for each region to achieve both resistance and high yields.

Nurseries & Greenhouses

We specialize, with our partners, in crafting tailored solutions for agricultural endeavors, ranging from modest tropical tunnels to cutting-edge structures. Our expertise spans soil-based and soil-less growing techniques, all customized to harmonize with the distinct features of every site and project.

Modern Infrastructure

Rice/Wheat reapers, GPS guided laser levelers, NDVIA Drones, efficient irrigation system, water storage facilities, harvest storage warehouses; working with the best suppliers, we bring the world-class innovation and integrate them into each project that we plan and build.

Corporate Social Responsibility

Jangisar Holdings has been a beacon of hope, undertaking numerous humanitarian initiatives by partnering with Dubai Farms. From educational endeavors to food security and housing projects, we have touched the lives of thousands, empowering women, supporting families, and providing essential aid during times of crisis.

Overall, JH's multifaceted approach to sustainability and community development makes a substantial contribution to achieving ESG objectives in the region.
